## The Davidson 99® Regional Stock Index

The professionals at D.A. Davidson & Co., the largest full-service brokerage firm based in the Northwest, believe that investors are particularly interested in companies they consider to be local or regional. That's why we created the Davidson 99® Regional Stock Index, comprised of 99 stocks of leading companies in our home region of the Pacific Northwest and Rocky Mountains.

Historically, the stock market has pointed to major changes in the U.S. economic landscape and is included in the Department of Commerce's Index of Leading Economic Indicators. The Davidson 99® index was developed to provide a similarly comprehensive perspective for the important region covering the Northwest and Rocky Mountain states. The Davidson 99® can be viewed as an indicator of trends that local or national stock indices may miss, especially during periods of rapid economic growth and contraction.

Included are 99 of the most important publicly traded companies with headquarters or a major presence in seven states: Colorado, Idaho, Montana, Oregon, Utah, Washington and Wyoming.

D.A. Davidson's Private Client Strategy Team comments regularly on the Davidson 99®'s performance and the implications for the region's economy. The index's closing price is published daily. The Davidson 99® is "price-weighted," or calculated in the same manner as the Dow Jones Industrial Average. Each day, the closing price of each of the index's component members is determined and the values are added. This value is then compared with the value set on Dec. 31, 2003, and adjusted for stock splits and mergers. The index is set to a base value of 100 on Dec. 31, 2003.

The Davidson 99® is not managed or sold. D.A. Davidson makes a market in some component stocks, as indicated on the descriptions for those companies.

### DJIA

The Dow Jones Industrial Average is a widely used stock market index compiled by Dow Jones & Company to track the performance of the largest and most influential U.S. companies. It is a price-weighted index that includes 30 companies. The index is calculated by adding the closing price of the component companies then dividing the result by a divisor that accounts for company substitutions and stock splits that have occurred over the history of the index. Companies may be substituted periodically to reflect changes in the economic importance of individual companies in the overall economy and stock market.

### S&P 500

The S&P 500 Composite Index is a widely used stock market index compiled by Standard and Poor's Company, a division of McGraw Hill. The index is a market capitalization-weighted index that includes 500 companies selected by S&P as being representative of all the major sectors of the economy and occupying leadership roles in each sector. The index is calculated by determining the market capitalization of each component company then summing up the total and dividing the resulting value by a divisor that recognizes company substitutions and stock splits over the life of the index. The index is adjusted to track against a base value of 10.

### Nasdaq

The Nasdaq Composite Index is compiled by the NASD. It is a market capitalization-weighted index designed to track the price performance of the companies actively listed on the Nasdaq Major Market Exchange. The index is constructed by compiling each day the market capitalization of each of the component companies then dividing by a divisor that takes into account company substitutions and stock splits that occurred over the entire history of the index. The index was set with an initial value of 100 in 1971.

Name Ticker Sector State Descriptions are from StockVal®

**Advanced Energy Industries Inc.** **AEIS** **Information Technology** **CO**

Advanced Energy Industries, Inc. designs, manufactures, sells, and supports industrial power conversion products. Its products enable manufacturing processes that use thin-film deposition for various products, such as semiconductor devices, flat panel displays, solar panels, and architectural glass, and grid-tie power conversion in the solar market. The company was founded in 1981 and is headquartered in Fort Collins, CO.

**Alaska Air Group Inc.** **ALK** **Industrials** **WA**

Expeditors is a global logistics company. Its services include vendor consolidation, air and ocean freight forwarding, insurance, ocean consolidation, distribution and value-added services. They help their clients to their supply chains well. It was founded in 1979 and is headquartered in Seattle, WA.

**F5 Networks Inc. \* FFIV Information Technology WA**

F5 Networks, Inc. provides products and services to manage Internet traffic worldwide. Its application delivery networking products improve the performance, availability and security of applications running on networks that use the Internet Protocol. F5 Networks offers BIG-IP products to manage IP traffic between network servers, clients and other devices. F5 Networks serves telecommunications, financial services, technology, manufacturing and transportation enterprise customers, as well as government. F5 Networks was founded in 1996 and is headquartered in Seattle, WA.

**FEI Co. <sup>1\*</sup> FEIC Information Technology OR**

FEI Co. engages in the design, manufacture, marketing and service of products and systems that are used in research, development and manufacturing of very small objects to customers working in the fields of nanotechnology. Its products are based on focused charged particle beam technology. They include transmission electron microscopes, scanning electron microscopes, focused ion-beam systems, DualBeam systems that combine a FIB column and a SEM column on a single platform, secondary ion mass spectrometers, stylus nanoprofilometers and software systems for semiconductor yield improvement. The company was founded in 1971 and is headquartered in Hillsboro, OR.

**First Interstate Bancsystem Inc. <sup>1\*</sup> FIBK Financials MT**

First Interstate BancSystem, Inc. provides commercial banking services to individual and corporate customers. It operates a wholly-owned bank subsidiary, First Interstate Bank with banking offices in Montana and Wyoming communities. The services of the company, include personal & business checking and savings accounts, time deposits, individual retirement accounts, cash management, trust and brokerage services and commercial, consumer, real estate, agricultural and other loans. The company conducts various other financial-related business activities such as data processing services and technology services through wholly owned non-bank subsidiaries. The company was founded in 1968 and is headquartered in Billings, MT.

**FLIR Systems Inc. \*****FLIR****Information Technology****OR**

FLIR Systems, Inc. designs, manufactures and markets thermal imaging systems and infrared camera systems that are used in a variety of applications in the commercial, industrial and government markets. The company's business is organized into two divisions, thermography and imaging. The thermography division produces systems that provide precise temperature measurement capabilities and are used for a variety of commercial and industrial applications. The imaging division produces a range of systems that are used in such applications as long-range surveillance, reconnaissance, search and rescue, security, force protection, targeting and law enforcement. FLIR was founded in 1978 and is headquartered in Wilsonville, OR.

**Forest Oil Corp.****FST****Energy****CO**

Forest Oil Corp. engages in the acquisition, exploration, development, and production of natural gas and liquids primarily in North America. It sells natural gas on a month-to-month basis in the spot market under short-term contracts. The company was founded in 1916 and is headquartered in Denver, CO.

**Gas Natural Inc. \*****EGAS****Utilities****UT**

Gas Natural, Incorporation Formerly known as Energy, Incorporated. The Group's principal activity is to conduct regulated utility operations which involve the distribution and sale of natural gas and propane. It operates through four Segments: Natural Gas operations, Propane operations, Gas and Electric Wholesale operations and Pipeline operations. As of 31-Dec-2008, the Group distributed approximately 26 billion cubic feet of natural gas to approximately 37,000 customers and marketed approximately 2.3 billion cubic feet of natural gas.

**Glacier Bancorp Inc. <sup>1</sup>\*****GBCI****Financials****MT**

Glacier Bancorp, Inc. is a multi-bank holding company. It provides depository, real estate lending, mortgage origination and retail brokerage services. It owns ten banking subsidiaries, including Glacier Bank and Mountain West Bank. The company has banking centers in Montana, Idaho, Wyoming, Colorado, Utah and Washington, with 90 locations in total. Glacier Bancorp was founded in 1990 and is headquartered in Kalispell, MT.

**Greenbrier Cos. <sup>1</sup>****GBX****Industrials****OR**

Greenbrier Cos., Inc. engages in designing, manufacturing, and marketing railroad freight car equipment in North America and Europe, a manufacturer and marketer of ocean-going marine barges in North America and a provider of wheel services, railcar refurbishment and parts, leasing and other services to the railroad and related transportation industries in North America. It operates in three primary business segments: Manufacturing, Wheel Services, Refurbishment & Parts and Leasing & Services. The company operates the largest independent wheel services, repair, refurbishment and component parts networks in North America, operating in 38 locations. The company was founded in 1981 and is headquartered in Lake Oswego, OR.

**Headwaters Inc.****HW****Materials****UT**

Headwaters, Inc. manufactures synthetic fuel and invests in, acquires and grows early stage technology companies. The company provides products, technologies and services to the building products, coal combustion products and energy industries. It operates its business primarily through three reporting segments: Light Building Products, Heavy Construction Materials and Energy Technology. Headwaters was founded in 1987 and is headquartered in South Jordan, UT.

**Hecla Mining Co.****HL****Materials****ID**

Hecla Mining Co. engages in the discovery, acquisition, development, production, and marketing of silver, gold, lead, and zinc. It produces and sells lead, zinc, and bulk concentrates for custom smelters on contract. The company was founded in 1891 and is headquartered in Coeur d'Alene, ID.

**Huntsman Corp.****HUN****Materials****UT**

Huntsman Corp. manufactures basic products for chemicals, plastics, detergent, personal care, rubber and packaging industries. Its operating companies manufacture basic products for global industries, including chemicals, plastics, automotive, aviation, footwear, paints and coatings, construction, technology, agriculture, health care, textiles, detergent, personal care, furniture, appliances and packaging. Its products include MDI, amines, surfactants and epoxy-based polymers, polyurethanes and base chemicals. It was founded in 1970 by Jon M. Huntsman and is headquartered in Salt Lake City, UT.

**IDACORP Inc. 1\*****IDA****Utilities****ID**

IDACORP, Inc. generates, transmits and distributes electricity. It delivers electric utility services to customers in eastern Oregon and Idaho. Its generating portfolio includes gas, diesel and coal-fired facilities, as well as 17 hydroelectric plants. The company was founded in 1998 and is headquartered in Boise, ID.

**IHS Inc.****IHS****Industrials****CO**

IHS, Inc. provides traditional & on-line information and consulting services. Its products & services focus in the areas of energy, product lifecycle, security, and environment.
